Portfolio | LeetCode | CodeChef | GitHub | LinkedIn

Summary

Final-year B.E. IT student with strong DSA fundamentals (1870 LeetCode rating, 700+ problems solved) and hands-on full-stack and distributed-systems experience. Merged a production fix into the open-source AWS CDK framework and built systems handling real user traffic.

Education

Army Institute of Technology, Pune

Bachelor of Engineering (B.E.), Information Technology

2023 – 2027

CGPA: 8.54/10

Technical Skills

Core CS: Data Structures & Algorithms, Object-Oriented Programming, System Design, Database Management System, Operating Systems, Computer Networks

Languages: C++, Java, Python, SQL, Bash

Frameworks: Spring Boot, Node.js, React.js, Express.js

Databases: MongoDB, MySQL

DevOps & Infra: Docker, Kafka, gRPC, Terraform (IaC), CI/CD

Tools: Git, GitHub, Postman

Experience

Open Source Contributor - AWS CDK (GitHub)

Jul 2026 - Sep 2026

Hashing Mechanism Integration

- Resolved AWS ECS CloudFormation synthesis bug in the AWS CDK framework by implementing automated container deployment triggers during underlying EC2 **Auto Scaling Group** instance mutations.
- Incorporated a deterministic hashing mechanism injected into the **Ec2Service** construct to force **CloudFormation** to register strategy changes, validated with **aws-ecs** test suite.

Accenture Innovation Challenge

Mar 2025 - Jun 2025

Graph Algorithm Development

- Led a 5-member team to architect an eco-packaging routing framework, earning a **Top 10%** finish among 100,000+ national competitors.
- Designed a custom **graph algorithm** and high-fidelity prototype **API**, optimizing transit paths to cut carbon waste while handling high-throughput mock traffic data.

EY Techathon 5.0

Nov 2024 - Feb 2025

LLM-Driven State Architecture

- Architected an AI-driven career pathing framework with Node.js, boosting roadmap accuracy by **40%** via **LangChain** powered competency mapping and **prompt optimization**.
- Integrated secure **MongoDB** schemas to capture transaction history and skill assessments, utilizing **JWT**-authorized APIs and Jest to ensure high data reliability.

Technical Projects

Distributed Collaborative IDE

React, WebSockets, Node.js, Express.js, MongoDB, REST APIs | **GitHub**

- Engineered a real-time collaborative code editor leveraging **WebSockets**, supporting multi-user live editing and instant synchronization, reducing latency by **15ms** across devices.
- Built a robust backend execution engine with multi-language support and **MongoDB** session management, reducing build times by **20%** and optimizing collaboration.

Patient Management Portal

Spring Boot, Microservices, gRPC, Kafka, Docker, AWS | **GitHub**

- Developed a scalable microservices ecosystem using **gRPC** and Apache **Kafka** for event-driven streaming, reducing inter-service communication latency by **35%**.
- Crafted a secure API Gateway with **JWT Auth** and **CloudFormation** (IaC) which cuts provisioning time by **50%** through triggered AWS deployment.

Achievements

- LeetCode:** Knight — **1870** Rating, Top 5% Globally
- CodeChef:** Achieved **3** Star, Max Rating: 1710 / Division 2 over worldwide participants.
- Distributed Collaborative IDE:** 350+ users, running real-time multi-user sessions in production.
- Open Source (aws-cdk):** Merged a fix to **aws/aws-cdk** resolving GitHub issue of deployment triggers.
- State Level Badminton Championship:** Secured Silver Medal in U19 category.
